PASS

This product has been reviewed and approved by our FDA Approved Lab located in the United States of America.

The results reported in this Certificate of Analysis (COA) are truthful and representative of the lot. The finished product and all raw materials used to manufacture the batch have been found to meet required specification limits in accordance with 21 CFR 111 (cGMP) regulations and the product is duly released.

Summary of Analysis:

- Physical Properties:** Fine brown powder with characteristic coffee/earthy odor; verified as fully soluble in water.

- **Microbiology:** Comprehensive screening for Total Plate Count, Coliform, E. coli, Salmonella, and Yeasts & Molds all confirmed as **PASS**.
- **Final Disposition:** This batch meets all required safety and quality specifications for release.
