Salmonella spp.	AOAC 2013.01 <Vidas>	None Detected	None Detected	PASS
Yeasts & Molds	Biolumix	< 1,000 cfu/g	< 1,000 cfu/g	PASS

Final Disposition
PASS

This product has been reviewed and approved by our FDA Approved Lab located in the United States of America.

The results reported in this Certificate of Analysis (COA) are truthful and representative of the lot. The finished product and all raw materials used to manufacture the batch have been found to meet required specification limits in accordance with 21 CFR 111 (cGMP) regulations and the product is duly released.

Analysis Highlights:

- Mineral Profile:** Confirmed levels per 2.5 mL serving for Magnesium (**239 mg**), Chloride (**668 mg**), Potassium (**18 mg**), Lithium (**817 µg**), and Boron (**281 µg**).
- Purity:** Heavy metals (Lead, Arsenic, Cadmium, Mercury) all verified as **PASS** according to USP <232> standards.

- **Microbiology:** Full safety screening for aerobic counts, yeast/mold, E. coli, Salmonella, and S. aureus recorded as **PASS**.
- **Identity:** Appearance, color, and odor match established reference standards.
