This product has been reviewed and approved by our FDA Approved Lab located in the United States of America.

The results reported in this Certificate of Analysis (COA) are truthful and representative of the lot. The finished product and all raw materials used to manufacture the batch have been found to meet required specification limits in accordance with 21 CFR 111 (cGMP) regulations and the product is duly released.

Key Data Summary:

- **Product Identity:** Verified as a liquid matching established color (colorless to light yellow) and odor standards.
- **Potency (per 2.5 mL):** Confirmed levels for Magnesium (**239 mg**), Chloride (**668 mg**), Sodium (**17.5 mg**), Potassium (**18 mg**), Lithium (**817 µg**), and Boron (**281 µg**).
- **Safety & Purity:** Heavy metals meet USP <232> limits; full microbiological screening passed, including Salmonella and E. coli.
- **Disposition:** Batch **PASS**.
