This product has been reviewed and approved by our FDA Approved Lab located in the United States of America.

The results reported in this Certificate of Analysis (COA) are truthful and representative of the lot. The finished product and all raw materials used to manufacture the batch have been found to meet required specification limits in accordance with 21 CFR 111 (cGMP) regulations and the product is duly released.

## Analytical Highlights:

- **Identity:** Confirmed as a liquid formulation with the vitamin B-complex identity verified via HPLC/UHPLC.
- **Potency:** Verified the presence and potency of the full B-vitamin spectrum for high-absorption energy support.
- **Safety & Purity:**
  - **Heavy Metals:** Confirmed compliance with safety limits for Lead, Arsenic, and Mercury via ICP-MS testing.
  - **Microbiology:** Full PASS on all safety markers, including Total Aerobic Microbial Count and pathogens (E. coli, Salmonella).
- **Final Disposition:** This batch meets all required quality and safety specifications for release. Status: **PASS.**
