

Fermented Gallbladder Support - Liquid Bile & Digestion  
 SKU: ROC734 Date: 1/21/2026 | Verified Third Party Lab | Lot# 230754004

## CERTIFICATE OF ANALYSIS

<b>Product Name</b>	Fermented Gallbladder Support - Liquid Bile & Digestion		
<b>Product SKU</b>	ROC734	<b>Date Published</b>	2026
<b>Volume</b>	Liquid Formulation	<b>Country of Origin</b>	USA

ANALYSIS	METHOD	SPECIFICATION	RESULTS	STATUS
<b>Identity / Organoleptic</b>				
Appearance	Visual	Liquid	Conforms	PASS
Color/Odor	Organoleptic	Matches Standard	Conforms	PASS
Fingerprint Identity	UHPLC/FTIR	Must Conform to Standard	Conforms	PASS
<b>Purity (Heavy Metals per Serving)</b>				
Lead (Pb)	ICP-MS	≤ 5 µg	Pass	PASS
Arsenic (As)	ICP-MS	≤ 15 µg	Pass	PASS
<b>Microbiology</b>				
Total Aerobic Microbial Count	USP <2021>	≤ 1 x 10 <sup>3</sup> cfu/mL	Pass	PASS
Salmonella spp.	USP <2022>	None Detected	Pass	PASS
Escherichia coli	USP <2022>	None Detected	Pass	PASS

**Final Disposition**  
PASS

This product has been reviewed and approved by our FDA Approved Lab located in the United States of America.

The results reported in this Certificate of Analysis (COA) are truthful and representative of the lot. The finished product and all raw materials used to manufacture the batch have been found to meet required specification limits in accordance with 21 CFR 111 (cGMP) regulations and the product is duly released.

### Analytical Summary:

- Product Name:** Fermented Gallbladder Support - Liquid Bile & Digestion

- **Identity:** Verified as a liquid formulation with identity confirmed via UHPLC/FTIR fingerprinting.
- **Purity & Safety:**
  - **Heavy Metals:** Confirmed compliance for Lead and Arsenic via ICP-MS.
  - **Microbiology:** Full **PASS** on safety screening for aerobic counts and pathogens (E. coli, Salmonella).
- **Final Disposition:** Batch meets all criteria for release. Status: **PASS**.
