Microbiology				
Total Aerobic Count	USP <2021>	≤ 10,000 CFU/g	< 100 CFU/g	PASS
Escherichia coli	USP <2022>	Negative	Negative	PASS
Salmonella sp.	USP <2022>	Negative	Negative	PASS

Final Disposition
PASS

This product has been reviewed and approved by our FDA Approved Lab located in the United States of America.

The results reported in this Certificate of Analysis (COA) are truthful and representative of the lot. The finished product and all raw materials used to manufacture the batch have been found to meet required specification limits in accordance with 21 CFR 111 (cGMP) regulations and the product is duly released.

Analytical Highlights for Lot #MCG240210:

- **Active Potency:** 10-in-1 Mushroom Complex Blend verified via input process controls.
- **Safety & Purity:**
 - **Heavy Metals:** Tested via USP <233> standards; Lead and Mercury levels confirmed well below safety thresholds.
 - **Microbiology:** Full screening (USP <2021/2022>) confirmed negative for *E. coli* and *Salmonella*, with total aerobic counts within safe limits.
- **Physical Characteristics:** Verified as brown button-shaped gummies with a characteristic odor and taste.
- **Final Disposition: PASS**
